## Heavy duty flatback tape backings

Designed for heavy duty masking applications  
 Complete range from base paper to saturated and release coated product  
 Unique high tensile properties and excellent surface for printing  
 High saturation and adhesive coating efficiency  
 Flat product for demanding jobs with good saturation performance.  
 Ahlstrom-Munksjö MasterTape™ Perform is suitable for a wide range of applications ; heavy duty masking, electrical bandoliering, splicing, etc...

It is extremely flat, smooth and has unique high tensile and tear properties. When extra conformability is required, it can come with up to 10% elongation.

Thanks to our new capabilities, our papers can be saturated, synthetic fiber reinforced, release coated or coated with different types of primers and barrier coatings.

We propose multiple colors in our portfolio.
