## Pressure Sensitive Adhesive packaging tape backings

Sustainable fiber-based alternative to plastic packaging tapes with high biobased contents  
 Very good internal bond and mechanical properties to ensure shock resistant tapes  
 Cost effective solution with on-line saturation and release coating steps  
 Ready-to-coat construction suitable for most adhesive systems

Perfect fit for sustainable pressure sensitive packaging tape applications.

Dedicated to pressure sensitive tape application (PSA), our backing constructions cover multiple needs. We propose a range of saturation base papers with different basis weight and mechanical properties.

Thanks to our new capabilities, our papers can be saturated, synthetic fiber reinforced, release coated or coated with different types of primers and barrier coatings.

MasterTape™ Pack Green, newest product within our range, is designed for sustainable pressure sensitive adhesive tape applications. Repulpable and recyclable backing with high biobased content to minimize its environmental impact, it fits perfectly for light and medium duty packaging. Discover more on our campaign [here](#).

Our flexible assets and knowledgeable product development group enable us to develop innovative designs and constructions that will make you stand out from the competition.
