# High Capacity Syringe Filters

## Ahlstrom-Munksjö ReliaMAX™

Ahlstrom-Munksjö offers a range of advanced syringe filters for difficult sample preparation that include multiple layers of custom prefilters

Ahlstrom-Munksjö's ReliaMAX™ syringe filters contain prefilters specifically developed to increase the efficiency of laboratory microfiltration applications by reducing the number of steps needed to process samples and solutions with either a high particle load or a high viscosity if standard syringe filters are used.

ReliaMAX™ includes high quality nylon membranes available in 0.2 µm and 0.45 µm pore sizes for increased flexibility in sample filtration depending on final application.

### Applications:

- Clarification of solutions
- Removal of particles
- Sample preparation

### Benefits of Multi-Layer Prefilters:

- **High particle holding capacity** – larger amount of particles can be captured prior to clogging the membrane
- **Fast initial flow** – the specific structure of ReliaMAX™ offers excellent flow with viscous samples
- **Low resistance to pressure** – fast and efficient filtration even with low pushing pressure
- Available with standard membrane media

## Characteristics and Benefits

Ahlstrom-Munksjö's expertise in creating filtration media is designed into this advanced syringe filter which contains two of our microfiber glass filter media providing a total of three layers of decreasing porosity to better capture larger particles before they reach the more easily blocked polymeric membrane filter.

Internal testing shows that ReliaMAX™'s filter design performs better than syringe filters containing a membrane with a single layer prefilter and comparably with competitive syringe filters containing multi-layer prefilters when filtering standardized solutions.

Membrane	Diameter mm	Pore size µm	Hold-up Volume µl	Housing	Inlet/Outlet	Pack of 100
Nylon	25	0.2	<400 µl	PP	Female Luer Lock / Male Luer Slip	7X7531
Nylon	25	0.45	<400 µl	PP	Female Luer Lock / Male Luer Slip	7X7532
PTFE	25	0.2	<400 µl	PP	Female Luer Lock / Male Luer Slip	7X7539
PTFE	25	0.45	<400 µl	PP	Female Luer Lock / Male Luer Slip	7X7512
