Silca™ Glassine, SCK, HPL release papers

Superior die-cut ability for hassle-free conversion
Excellent smoothness and gloss for consistent silicone coverage
One and two-side performance characteristics that provide the ability to design precise release
Compatible with all silicone chemistries, paper or film facestocks

Ahlstrom-Munksjö has the experience and expertise required to help all pressure sensitive release liners run successfully by optimizing holdout, caliper, uniformity, density and strength for each custom application. We work with our customers to provide more efficient solutions to the challenging needs of the pressure sensitive industry.

Primarily manufactured to suit the needs of North American markets, our Silca™ range offers three different supercalendered finishes, including Glassine, SCK and HPL (high performance liners) release papers, available in substrates from 41 to 195 gsm, and in a large variety of different colors. Industrial versions are suitable for silicone coating on both sides. Main applications include PSA label-stock laminates, tape, medical, industrial materials and components.

All papers can be ordered with FSC®, PEFC™ or SFI® certification. All liners available in, bleached, unbleached, blended and Post-Consumer (PCW) recycled fiber, and in custom colors.

Applications:

- Specialty Tapes
- Double-Sided, Single-Sided and Transfer Tapes
- Industrial
- Building & Construction, Automotive, Interleaving, Process Liners, Electronics, etc.
- Composites
- Aerospace, Recreational, Industrial

- Medical
- Surgical Drapes, Wound Care, Therapeutic Patches, Stoma Care
- PSA Labelstock

Liner Type:

Liner Type	Caliper	Basis Weight	Attributes	Additional features
Silca™ - Glassine	1.7 mil - 6.0 mil	50-163 gsm	<ul style="list-style-type: none"> •Smoothest surface for silicone coating •Highest density for clean die-cutting 	<ul style="list-style-type: none"> •Smoothest possible finish •One- and two-side coatable • Meets medical application standards; •Withstands multiple conversions; •Great temperature resistance for specialty applications
Silca™ - SCK	1.7 mil - 6.0 mil	40-195 gsm	<ul style="list-style-type: none"> •Smooth surface for silicone coating •Compatible with all silicone systems •High density for clean die-cutting 	<ul style="list-style-type: none"> • Available in non-yellowing formulas •One- and two-side coatable •Withstands multiple conversions; •Great temperature resistance for specialty applications
Silca™ -HPL	1.7 mil-3.5 mil	50-98 gsm	<ul style="list-style-type: none"> •Smoother surface vs. SCK •Caliper controlled sheet •Excellent die-cutting 	<ul style="list-style-type: none"> •Smoother surface vs. SCK •Caliper controlled sheet •Excellent die-cutting •Compatible with all silicone systems
