Industrial Release materials

Made for industrial usage: high mechanical properties
Highly effective and clean barrier: no fiber or dust
Customizable to your application
Eco-friendly fiber-based solution

TechRelease™ is a versatile tool for industrial release applications: it is an outstanding process paper to interleave or convey sticky substances.

TechRelease™ can be used in numerous processes and applications, from aircraft cabin panels to rubber belt production including medical consumables:

- In pre-pregs production, resin fibers are **conveyed** onto **TechRelease™** before being **pressed**
- Extruded filaments; foams, PVC, hot melts can be run onto **TechRelease™** prior to being **conveyed** through ovens or other manufacturing processes
- It is also excellent for **interleaving** between sensitive products like medical filtration membranes, electronic devices, ...

This highly advanced composite can be tailored to your application:

- Custom release coating possible on each side
- Multiple color options
- Low Minimum Order Quantities
- Multiple finishing options: sheets, rolls, custom width

Find out more about the Genuine Vegetable Parchment technology [here](#)

Main benefits

- An effective & clean barrier
 - Barrier to oil, grease, adhesives, resins, and other monomers, oligomers, and liquid polymers
 - No loose fibers or dust
- A material that stands the test of industrial usage
 - High internal bond
 - High tensile and burst strength (dry and wet)
 - Temperature resistance
 - High pressure resistance
 - Anti-static
- A Natural solution: 100% virgin natural fibers from renewable resources, sourced from responsibly managed forests (FSC, PEFC)

Application Examples

- Technical laminate for aircraft, ski and isolations or other composites technologies
- Rubber vulcanization, textile transfer, mixing pads for automotive
- Decoration (lampshades, furniture laminates)
- Filtration (kerosene, caustic soda,...)
- Protection of the belt ("tray") of the press
- Stencils, Backing on hot melts, Surface protection
- Gaskets (eg: in cooling systems), Base paper for further treatments
- Diagnostics membranes
