Engineered paper surfaces and balancing foils, overlays

Impregnated foils and overlays for functional surfaces

Made from sulphate cellulose

Provide moisture vapor transmission rate MVTR protection and sound dampening to engineered flooring

Provide excellent moisture barrier and workability

Strengthen and balance stresses in worktops

Spantex™ natural wood fiber based moisture barrier with excellent workability for balancing LPL and HPL laminates.

Balancing foil for laminate

Balancing foil/engineered paper is used as a moisture barrier in floor panels, kitchen worktops, and window ledges as well as used in low or high pressure laminate surfaces as a balancing paper.

Available both as a single-ply, surface treated paper foil and as a two-ply, surface-treated laminate with built-in moisture barrier.

- Impregnated foils with Lam-E provides excellent moisture barrier and workability for kitchen and shower panels
- Impregnated foils strengthen and balance stresses in worktops and provides moisture barrier for critical areas with Lam-E

The fiber used in production of our paper is supplied from local certified timber suppliers, within a 100 kilometer radius of the plant in Billingsfors, Sweden. This allows us total control of the quality of our paper as we manage the manufacturing process from start to finish.

Our plant is certified according to ISO 14001:2015, ISO 9001:2015, OHSAS 18001:2007, ISO 50001:2011, FSC® as well as PEFC™ and IKEA IWAY.

Impregnated foils and overlays for decorative surfaces

Good internal bonding
Easy to cut
Wipeable and dirt-repellent
Fade-resistant

Cellulose based foil/paper for plain furniture and kitchen cupboards suitable for all types of presses and wrapping.

Spantex™ balancing foil with decor

Printed and lacquered impregnated papers for balancing furniture and bookshelves; provides good internal bonding and is easy to cut and sand.

The base paper is adapted to suit the surface color of the pattern. The patterns on offer are similar to the most popular veneers. We also provide foils/paper with lacquer finish, R4, on request. Balancing foil with decor is ideal for the backs and inside of furniture.

Suitable for

- Plain furniture
- Wood interior
- Doors
- Floors
- Wall and ceiling panels

Spantex™ primer foil

Impregnated primer foils level the surface of furniture and panels to enhance post lacquering or painting for an excellent paint finish.

Suitable for

- Furniture
- Joinery industries

Spantex™ finish foil

Lacquered finish foil to withstand hot pressing and wrapping. Wipeable, fade-resistant and dirt-repellent. Available in a variety of color shades. We also offer a range of lacquer finishes to achieve both R2 and R4 as well as a stippled surface.

Suitable for

- Kitchen cupboards
- Children's furniture
- Wardrobes
- Bookshelves

Our plant is certified according to ISO 14001:2015, ISO 9001:2015, OHSAS 18001:2007, ISO 50001:2011, FSC® as well as PEFC™ and IKEA IWAY.

Edge bands and primers for edge bands

Excellent workability
Good internal bonding
Easy to cut

Spantex™ natural wood fiber based edge bands for excellent workability.

Ahlstrom-Munksjö Spantex™ durable paper based edge bands come with either a treated or an untreated surface, and can be laminated to achieve the desired thickness. Available plain stippled or printed with a wood grain pattern.

Suitable for

- Panels
- Furniture (including kitchen furniture)
- Worktops

Primer Edge bands

Spantex™ primer edge band is designed for painting and available in standard, surface-treated and glue-primed versions. The edge bands can be used as laminate base for high-quality edge bands or laminated for soft- and post-forming.
